Miss Durwood was educated in the Universities of Colorado and Chicago, having been graduated from the latter. She has been principal of the Manitou, Colo., High school eight years, has taught in the University of Wyoming and for the past two years has held a chair in the State Normal of Kentucky.

Miss Myrtle Decker is not known in Roswell, this being her home and having taught in the High school in years past. For three years she has been principal of the Doming, N. M. High school, with marked success. Her parents reside here.

Miss Alice Gentry was educated at the Minneapolis High school, Washington College, Kansas; University of Chicago, University of Kansas, and has had special work in music in Boston. She taught for seven years in Topeka and the past three years has taught in the High school of Abilene, Kan.

BIG FIRE AT ARTESIA

Special to the Record.
Artesia, May 17.—The garage of Charles Echols was completely destroyed at three o'clock this morning by a fire of unknown origin. The building, which was made of framework covered with corrugated iron, was a mass of flame when discovered and the bursting oil cans within made it dangerous to get within fighting distance. The destruction was complete, nine automobiles and the arms and equipment of the local militia organization being destroyed along with the machinery and equipment of the garage. The total loss, not counting Uncle Sam's property, will reach between \$23,000 and \$25,000. There was but little insurance.

Charles Echols, owner of the garage, is confined to his bed with sickness. He estimates the value of his machinery, equipment and building at \$10,000 to \$12,000. He had only a small amount of insurance on the building and no insurance on the equipment.

Eight of the nine automobiles belonged to the following persons: Charles Echols, E. C. Higgins, Cecil Clayton, (a Thomas Flyer) J. A. Clayton, D. L. Newkirk, H. J. Garrard, Mr. Roebough and Kleinath & Person. The name of the owner of the ninth car could not be learned. It is thought to be E. F. Hardwick, of Roswell. It is thought that none of the automobiles was insured, all averaging about \$1500 in value.

Echols is lieutenant in the militia company and his garage was used as an armory for the guns and militia equipment.

DISTRICT COURT WORKING STEADILY THESE DAYS.

District court this morning finished the trial of the suit of Henry Selman & Co. against E. T. Aronett, for \$198, for a bill of goods. The jury decided in favor of the defendant and that he should be paid \$4.60 for express he had expended on the shipment. The case of Albert Jeffries against O. M. Fairchild, on notes, was on trial this afternoon.

The case of Stone vs. Duckett was dismissed for want of prosecution, at plaintiff's costs.

E. V. Kennedy, of Keena, and J. B. West, of Hagerman, have been arrested on information charging them with carrying guns. Pete Simpson, of Keena, was arraigned this morning on the charge of giving liquor to a minor, and he pleaded not guilty. His trial was set for May 19.

LAST NIGHT AT REVIVAL

In the teeth of a howling dust storm and with the fire fiend busy and doing his worst a good congregation gathered last night at the Baptist church. The attendance of the chorus choir was especially large. Tails evading the choir will meet Mr. Sellers at 7:45 and get 15 minutes drill on some new pieces before the regular services. Last night Mr. Sellers sang two solos, "God's Skies are Blue," and "Jesus is all the World to Me." With the choir he sang "Thy Word Have I Hid in My Heart," a piece written by himself. Mr. Sellers has written much of the music in the splendid new hymn book used in the meetings. He made it and no wonder he can sing it. Less wonder is it that his singing is the talk of Roswell and two weeks are mighty short. We want "you all" to hear him sixteen times at least. As it is some will have to come twice on one night.

Pastor McDowell took for his theme "God First," and made a plea to "Treat God Right." The text was "In the Beginning, God." "Seek ye first the Kingdom of God." "Thou shalt love the Lord thy God with all thy heart." Well may we pray, God help us to see large things large and small things small; God help us to put first things first and secondary things second. God is creator—treat Him as a creature should; God is father—treat Him as a child should; God is King—treat Him as a subject should; God is master—treat Him as a servant should; God is friend—treat Him as a befriended one should; God is Saviour—treat him as a sinner should.

Mr. Sellers led in a touching and tender after meeting.

Church Music.
E. O. Sellers.
Music in our churches is too often used for display, as a drapery for the balance, of the service. It is a most convenient form of expression and the psalmist tells us to "sing our praises and tell of His goodness." It is a means of direct address to God on one hand and to man on the other. A proper and probably the principle use of music is for the purpose of WORSHIP. It will create some sort of an atmosphere. If we must sacrifice the artistic do so rather than neglect worship.

The essentials of success are first leadership: one who has a proper sense of proportional values, of appropriateness, a right objective, and liberally endowed with common sense.

Second: a chorus, each member of which is willing to make His praise glorious; quartettes, male choruses, orchestras, soloists must all bend to this prime object. And lastly, congregational singing. Nothing will take the place of this. A church where the pastor does all the praying will be a carnal house, where one man does all the giving will be a cold storage and one where the choir does all the singing will be a morgue. We have no right thus to delegate our worship and service.

Music as a means of expression will make an impression and if surcharged with the love of God and Man will in turn so express itself as to glorify God, our Father and Jesus Christ, His Son.

TROOPS CALLED OUT IN A MISSOURI STRIKE RIOT

Hannibal, Mo., May 17.—The arrival early today of four companies of militia and a heavy rainfall had a quieting effect on the striking workmen at the plant of the Atlas Portland Cement Company at Ilasco where a riot was threatened yesterday. The fifteen hundred foreigners who threatened trouble retired before the troops arrived. Guards have been placed around the buildings which contain four cars of dynamite.

FIRST STEP TO GRAVE

London, England, May 17.—The body of King Edward VI, the Peace-maker, was taken with stately pomp this morning from Buckingham Palace on the first stage of the journey to the grave and now lies in state in Westminster Hall, where hundreds of thousands will pay a last tribute to the dead monarch before the final passage through the streets of the capital on Thursday.

Mr. Roosevelt, the special American ambassador to the funeral of King Edward, did not participate in today's ceremony. Mrs. Roosevelt, Ethel and Kermit and Ambassador Reid and Mrs. Reid, witnessed the procession from the house on Carlton Terrace, but Mr. Roosevelt spent the morning in answering his correspondence.

The procession escorting the body of the dead monarch passed through doubled lines of red-coated soldiers flanked with rows of policemen and a mass of black-garbed humanity. The buildings along the route were heavily draped in mourning.

The booming of sixty-eight minute guns fired at St. James Park, followed by the tolling of "Big Ben," the great clock in the tower of the House of Commons, and by the roll of muffled drums, told to countless thousands this morning that the body of their late king was starting on its last journey.

Soon after a guardsman with sword reversed, came down the Mall, two other guardsmen following close behind. Then came the officers of the headquarters staff of the army council, and the board of admiralty. As the gun carriage on which the casket was borne approached the order "rest on your arms," was given. With heads bowed the soldiers kept their eyes on the ground, while the body of King Edward passed, the soldiers coming to attention again for the royal standard, which was carried immediately behind the casket, and in front of King George, who, like the officers and other members of royalty, was on foot.

next car, the outside of which was a mass of flames. Quick work soon had the fire out. With the strong wind that was blowing, the whole string of cars, which extended almost the full length of the yards, would have soon been ablaze. Every indication points to maliciousness on the part of some one who wanted to damage the railroad company. The two cars that were burned, or partly burned, were empty.

Conductor T. S. Hurd came in this morning on the passenger train in place of Conductor Placey, who is taking a lay-off at Amarillo for the Barney Oldfield automobile races.

WHY KERBY WAS FIRED

Washington, May 17.—Frederick M. Kerby, whom Secretary Ballinger discharged yesterday for the publication of confidential information of the department, took the witness stand before the Ballinger-Pinchot committee today and undertook to justify his action as the fulfillment of a public duty.

He declared that if Mr. Ballinger had responded to the call of Mr. Brandeis for the "Lawler memorandum," it would have been unnecessary for him to have taken the course he did to get the information before the committee.

Kerby said his former chief, Mr. Garfield, had told him at Gifford Pinchot's home in this city last February that it was his duty to tell the facts if called on. Kerby said he had mentioned to Hugh Brown, private secretary to the Director of the Census.

Washington, May 17.—President Taft's explanation of the circumstances under which his letter exonerating Secretary Ballinger from the Glavis charges and dismissing Mr. Glavis, was prepared, was presented to the Ballinger-Pinchot committee when the hearing was resumed today.
